P and G Intro Call

Portfolio.....

- It is your identity which shows who you are, how dedicated you are, how talented you are.

- Need to create best portfolio and forecast all your skills here, create a eye-appealing, catchy , outstanding portfolio, which helps you grab the opportunity

Requirements......

- Should be eye appealing, outstanding.
- Colorful
- All the sections should be responsive for all the screen sizes
- All the buttons/links should be working, (you should be the owner of the links)
- All the links should open in a new tab.
- Tech Stacks: HTML-CSS-JS/React, use any.

Sections...

- Home
- About
- Experience (If any)
- Skills
- Projects
- Statistics
- Contact

Sections……

- Navbar
  - It should consist all the buttons of all the sections, on click it should take to the particular section.
  - Normal Navbar for Large Screens, Hamburger menu for medium small screens.
- Home
  - Brief summary about you, add/use animations, gifs, graphics etc.
- About
  - About yourself in details, which covers education
  - Add good professional photo, which is upto the headshot, have a good smile of the face.
- Experience
  - If you have add it in the reverse chronological order, it should cover your role, areas of responsibilities, project you worked on.
- Skills
  - Add all the skills in the form cards, use logos/Images of the skills, also include tools as well.

Sections…...

- Projects
  - Show 3 to 4, best projects of yours, in the form of cards.
  - Add the project image, write some description, mention the techstacks,
  - Add two buttons, one for github code base, another for Live/Deployed Links, on click it should redirect by opening new tab.

- Statistics
  - Attach github statistics, which shows you commit statistics on the calendar, you streaks, most coded language etc.

- Contact
  - This section consists of mobile number, email address, linkedIn and Github links, use Icons, hyperlink it.

- Resume
  - Keep your resume in the drive, use its link by keeping sharing on.
  - On click of the button, it should open in new tab and also should download simultaneously.

Github......

- It is a platform, which describes your coding ability, dedication, so it is important to keep the Github profile as professional as possible.

- Two parts to be updated

1. Github Profile

2. Project Repos

Github Profile:-

- Use the professional photo (use same as that of portfolio)

- Describe yourself, like using Aspiring MERN developer, etc., in the about section (below the photo).

- Add the portfolio link, LinkedIn link in the respected slot.

- Try to increase the followers, request your batchmates to follow you, also follow them back.

- Beautify the your profile Readme (right side of photo), use animations, gifs, show the techstacks, provide contact details, hyperlink the icons.

- The profile readme is special readme, [created by using repo name that is username](#)

Github Project Repos......

- Pin your best projects, these projects should be displayed in the portfolio.

- Rename the repos with meaningful names like Jio-Mart-clone etc., not web-warrior-7654

- Add meaningful description of the project in the about section of each repo,

- Add the topics/tech stacks in below the description, along with the deployed link.

- Beautify the repo readme, follow the systematic structured guideline given.
  - Add table of contents, folder structure, type of project, deployed links, a video of project walkthrough.
  - Add features, screenshots, installation guidelines, contributors etc.

- *Make sure you adhering these guidelines for all the pinned repos.*

How to test/submit…?

- Integrate your Github Profile with the LMS, (wait until Instructions are given)

- An assignment will be released on CP, you can test there,

- make sure you are following the guidelines given in the CP description while creating your portfolio and Github.

- Or else the test cases may fail… Be Careful…

- Deploy your portfolio on Github pages.

- Once you get pass from CP, your P & G will be graded manually, the feedback will be sent through email, you need to work on the feedback and update accordingly.

Finally……

- The checklist/Guidelines will be shared to you by your EC very soon,

- Make your P & G according to it.

All The Best……
